

## MODELS

MODEL #BHA9X9

## FEATURES

BHA is a single layer of 9 x 9 1000 denier multi polymer coated polyester mesh used for high abrasion and oversized air intake protection applications. 5 Year Warranty. Fabric meets the flame resistance requirements of NFPA-701 test standards. Available in a 61" wide by 100 linear yard roll or cut to size pads.

## PRODUCT DETAILS

- High Trapezoid Tear Strength--MD 55/CD 40 - ASTM D 4633 Test Method
- High Grab Tensile Strength--MD 115/CD 105 - ASTM D 4632 Test Method
- Mullen Burst Strength - 240 - ASTM D 3786 Test Method
- Heat Sealability
- Excellent Cleanability
- Rot Resistance
- Weather Resistance/UV Protected
- Abrasion Resistance
- Media Weight 3.3 oz/yd<sup>2</sup>
- Media Construction 18 x 18 PPI
- Yarn Type 12 mil FR Green PP
- UL Classified as to Flammability Only
