

PREVENT® COMPLETE MAGNETIC AIR INTAKE

FEATURES

Model PREVENT-R100 to R1000 acts as a primary pre-filtration defense to help prevent the damage and extensive maintenance that large volumes of debris can cause. Designed for strength and durability, the air intake filter stands up to outdoor or indoor exposure, corrosive chemicals, high velocity air flow, as well as industrial cleaning and maintenance. Custom designed and manufactured to fit any sized equipment air intake.

SIMPLE POWERFUL FILTERS at a SIMPLY standardized price

PRODUCT DETAILS

- 2 layers of BHC electrostatic polypropylene
- Wire reinforced (all sizes)
- Black stainless steel frame
- Magnetic stripping around perimeter
- Pull-tab on shortest side
- Custom sized 0-1000 square inches, no changes or exclusions allowed for this part number
- Clean as needed, rinse with water, brush off or vacuum
- UL Classified. See complete marking on product.
- FMVSS 302 Compliant

MODELS	PREVENT-R100 TO R1000
Avg. Arrestance Efficiency	63.6%
Dust Holding Capacity	61 gm.
Initial Air Flow Resistance	0.06" w.g.
