MODEL # BONNET

## FEATURES

Bonnet style filter screen with elastic edging fits over the circular front side of a fan guard grill to stop dust and dirt from blowing out into the environment.

When measuring for the fit of a Bonnet or Fan guard filter, measure **UP AND OVER THE FRONT HALF OF GRILL.**

Washable electrostatic filter media is available in white or black honeycomb woven polypropylene. Easy to clean media that is nonreactive to chemicals or corrosive environments.

White media is FDA approved for food processing/AIB audit applications. Black media is UV protected for outdoor applications.
